District Attorney So Finds Charges of Mr. Amory.

AN EXPERT EXAMINATION

Marked Differences Do Exist, Says the Accountant, Between the Report, but Do Not Result in Any Ad-

vantage to Company.

(By Associated Press.)
NEW YORK, May 4.—District Attorney
Jerome late to-day made public the report of Expert Accountant Arthur W. whom he employed to look over oks of the Metropolitan Railway Company, after complaints had been lodged with him that the company was in default. In his report Teele says among

other things: and Tiendeman is not substantiated either in principle or in fact. The liabilities which have been omitted from the balance

which have one online and in which sheet, other than takes, would, when brought into the balance sheet, add assets of a corresponding value.

"The theory upon which it is claimed that dividends paid were unwarranted or unearned, is entirely wrong in princi-

or unearned, is entirely wrong in principle.

"Ine reports by the Metropolitan Street Railway to the Railroad Commissioners are not full statements of their financial condition. Marked differences do exist between the balance sheet of March 31, 1902, the report rendered to the State Espard of Railroad Commissioners, and the report to the New York Stock Exchange. These differences arise from an evident lack of uniformity and care in making the balance sheets, but do not result in any apparent advantage to the company or detriment to its stock-holders."

holders."

After making public the report, District Attorney Jerome, issued a statement in which he says:

"Mr. Teele finds that the specific conclusions of Messrs: Hertle and Teleuman and the specific charges of Mr. Emery are without foundation so far as they ascribe wrongdoing."

KING GEORGE FIRES

Residence of Lieutanant King Burned Without Insurance.

(Special to The Times-Dispatch.)

COMORN, VA., May 4.—The old resisence of the late Lieutenant William F. King, near here, has just been entirely consumed by fire. The old mansion was built nearly ninety years ago, and had been the property of Mr. T. B. Harris since the death of Lieutenant and Mrs. King several years ago. Mr. Harris was burning some brush several hundred yards distant, and the high wind carried a spark to the old building and set it on fire. All efforts to save it proved fulls. There was no insurance.

efforts to save it proved futile. There was no insurance.

Mr. Andrew Burchell, whose residence was destroyed by fire on Friday, lost in the neighborhood of five hundred dollars in cash, besides many valuable bonds and after papers. Nearly all the furniture and all the wearing appared of Mr. Burchell and the other members of his household were destroyed by the flames. The wind was so high and the house was so thoroughly dry that it was impossible to extinguish the flames.

Miss Martha Carter Grymes, of Mathias Point, this county, will, on Wednesday, May 8th, wed Mr. George C. Meade, of Clarke county. Miss Grymes belongs to one of King George's most prominent families. The cremony will be performed by Rev. B. T. Turner, of the Episcopal Church, at Woodstock.

The Potomac fishermen have been making some very large catches for a week past. On Saturday many thousands of herrings had to be turned loose in the river because the demand, though large, was not equal to the supply.

A number of the land-owners here have been greatly inconvenienced by their share tenants becoming discouraged and throwing up the land and teams they had rone to the supply and rented for this year. There being no labor that can be hired for farm work, it looks as of the land and teams of some of our people must lay idle this season.

Richmond College yesterday afternoon galloped away with the contest at BroadBreet Park, in which they had as opponents the Randolph-Madon aggregation, from Ashland incidentally, the
home team won the intercollegiate champlonship for the eastern district of Virginia. Score's to 4.

It was altogether fine and dandy the
way the rocters rocted and the young
lades cheered. But the worst of it, no
one could understand who was who—
who this or that young lady favored,
as they cheered for all. However, it
looked from the manifest colors—flags,
and ribbon—as if the crowd, which
was large, was about evenly divided.

The game was far and away the cleanest and fastest played college contest
seen on a local diamond this year.

From the second to the sixth linning
Ashland looked an easy winner, the score
being 3 to 2. But then there cropped
into the contest that mysterious thing
called luck, and Richmond ghoved two
men over the rubber, forging on to a
safe lead, and maintaining it until the
last ball had been tossed and the game
over and done. The score:

The other six members take almost a directly opposite position on every question involved. They say that Judgo Campbell has not had opportunity to defend himself after the notice was served upon him by the two houses; that he has had no opportunity to be heard on the third charge which was formulated after service of notice; that testimony taken before the House Committee cannot be used as legal evidence to sustain the formal charges set forth as causes for removal of Campbell in the concurrent resolution of the two houses; that the causes for removal have not been spread upon the journal of the House, although that House has passed the joint resolution of removal.

House has passed the joint resolution of removal. It will require a mere majority of the Senate to adopt one of the two reports. If the report of Mossrs, McIlwaine, Opie, Wakins, Harvey, Bryant and Whitehead be adopted, it will mean a trial of the case de novo by a joint committee of the two houses, consisting of five from each house. That will mean an indefinite prolongation of the case, certainly the posiponement of the decision until the November reconvening of the General Assembly. The adoption of the Cogbill, Bruce, Byars, Bears, Harman, Walker report will mean that the Senate will soon vote on the joint resolution passed already by the House. It will require twenty-one votes to adopt this. There are now forty members of the Benate, including Mr, Gunter, of Accomac, just chosen to succeed Dr. Le Cato. He will not participate in the case, not will Senator Mann. That will mean that but thirty-eight senators at the maximum will vote on the question of removal. Of this number twenty-one must favor the resolution to House.

ONANCOCK, VA., May 4—The entire interest of the county during the past week has been centered in how many applicants would be granted liquor licenses at the County Court. The entire number to date is three—two on Chincoteague Island and one at Onancock. Those on Chincoteague obtained licenses upon the ground that the Island is a watering place, and both places where the liquor is to be sold are hotels. There were five salcons on the Island last year.

The Town Council of Onancock had the privilege of passing upon all applicants for liquor license. Twoir meeting was held openly, and the Anti-Salcon League had counsel employed to protest against granting the licenses. A number of witnesses were examined, but nothing was proven against the four applicants, except that two of them allowed their sons, who are minors, to attend bar. Whon the question came to a vote the result was a tie—three for and three against license. The Mayor, Mr. N. N. Nock, had to decida. He voted that he would grant the licenses if the applicants would give bond to the town to allow no minors to sell whiskey. Thore is no law against minors selling whiskey. Up to the present time only one applicant has signed this bond, and others state they will not, as they are afraid to trust their business to decide of our hotels in Accome county to close down—the Oanancock Hotel, William C.
